

Sage Construction Project Center

Overview

Give project team members the ability to collaborate in real time throughout all phases of construction so your projects move forward—on time and on budget. Sage Construction Project Center helps teams reduce risk and drive efficiencies by automating the sharing, distribution, and tracking of all project-related details, including email communication, documents, approvals, costs, and more!

In today's fast-paced, documentation-reliant construction environment, everyone on a project can access up-to-the-minute information from a convenient and easy-to-use online location using a web browser. Available anytime, anywhere—cloud-based information sharing saves time, improves collaboration among team members, reduces confusion for everyone involved, and keeps parties well-informed.

Whether it's a request from the field, an RFI from a subcontractor, or an approval from the owner, Sage Construction Project Center provides access to the information so action can be taken immediately.

Benefits

- Get timely, convenient, and mobile access to all types of contract and project-related documents, photos, files, and more.
- Allow everyone on a project—including the owner, project team, architects, engineers, and subcontractors—to share, find, and track documents as well as a variety of transactions from the office or jobsite.
- Keep projects on time and on budget with automated workflow processes.
- Minimize the risk of litigation with detailed document management, control, and tracking.
- Improve collaboration and drive efficiencies through anytime, anywhere access to project-related details.

Keep everyone on the project in the loop with timely, convenient, and secure access to the project-related details they need in order to take action swiftly and confidently.

Keep projects moving forward—on time and on budget

With your entire project team connected to the cloud, they can access the information they need when they need it, stay well-informed, and ultimately run a more efficient and profitable project.

Share all types of files; find, view, and track who has what while you're away from the office or just on the go!

- Drawings
- RFIs
- Subcontracts
- Daily logs
- Specifications
- Submittals
- Punch lists
- Contracts
- Meeting minutes
- Cost events
- Change requests
- And more . . .

Improve collaboration and keep teams well-informed

Sage Construction Project Center helps project leaders keep everyone informed easily and effectively. By automating the process for accessing, sharing, and tracking information online throughout the project, your entire team becomes more organized, efficient, and well-informed.

Eliminate confusion and minimize risk

Eliminate the risk of litigation and costly delays by establishing smooth workflow for accessing information such as drawings from the cloud. Ensure everyone is working from the most recent information to avoid confusion and costly mistakes.

Integrate with Sage 300 Construction and Real Estate to improve cost tracking from bid through accounts payable (AP) processing.

Use Sage Construction Project Center with Sage 300 and experience seamless integration with Job Cost. You can share basic information such as extras, cost codes, and categories as well as project information including estimates, commitments, costs, and revenue.

- **Gain greater project cost visibility.** Once a bid is awarded to a subcontractor, you can instantly share the vendor and subcontract information with Sage 300. View details at a glance including job to date costs and budget.

- **Share critical information across the project team.** Keep everyone up to date by sharing companies, contacts, vendors, extras, cost codes, and categories between Sage Construction Project Center and Sage 300.
